Work Experience

2019-08 - Current

Full Stack Software Developer

Finneo, Toronto, ON

- Fixed bugs and improved overall user experience (B2B SaaS application – tech stack: React, Redux, Redux-Saga, Node, Feathers JS, MongoDB, PostgreSQL).
- Collaborated with both internal and external software teams to launch features on time and within budget.
- Performed software testing to uncover bugs and troubleshoot issues prior to application launch.
- Developed product documentation to communicate key components of upcoming features to software teams.
- Collaborated on all stages of development lifecycle, from requirement gathering to production releases.
- Translated technical concepts and information into terms all parties could easily comprehend.

2018-12 - 2019-08

Financial Analyst

R2 Investments, Toronto, ON

- Originated, reviewed, processed, closed and administered customer loan proposals.
- Optimized the capital structure of various projects (construction, land, equity).
- Assisted clients with securing \$20MM in commercial real estate funds.
- Developed and maintained client relationships.
